Suspicion, it is reported, attaches to the case of a Japanese whose mangled body was found on the Palia plantation railway. It is stated that

According to a dispatch received this morning by the Merchants' Exchange the Watson freighter Enterprise, which left San Francisco Saturday for Hilo, was disabled at sea March 25 and has appealed for help. The steamer Larline, the dispatch adds, will pick up the Enterprise and tow her into San Francisco. The breaking of her tail shaft is the occasion of the Enterprise's trouble.

BIG ROOMING HOUSE PLANS

Plans are being made by Emory & Webb to build a four-story reinforced concrete building at Fort street and Chaplain lane.

The property, which is part of the C. M. Cooke estate, is at present occupied by three frame shacks, now being torn down. As soon as this is done and the specifications have been finished work will commence on the structure which is to be a modern rooming house.

The ground floor will be divided for stores while the three upper floors will be occupied by the hotel. Mrs. E. P. Blaisdell, who owns the majestic hotel, will operate the new rooming house, which is to be modern in every way. The rooms are to be finished in old English Mission style and suites with private baths will be another feature.

The architects hope to have the building ready for occupancy in a few months.

JUDGE ROBINSON

(Continued from page One)

murder. They might be indicted for assault and battery, or for riot or something of that kind, but the serious charge is pau and can not be revived.

Asked in regard to the trouble Editor Bridgewater of the Garden Island got into, Judge Robinson said that when he first read the offending article he issued an order to Bridgewater to show cause, but later relented and did not have the sheriff serve it. Instead, he telephoned to Bridgewater to come and see him. When the editor arrived the judge informed him in pretty straight language that a newspaper had the right to comment as it pleased before the court acquired jurisdiction and after the trial was ended, but that as long as the court had jurisdiction he could not comment without being in contempt of court.

"It put me in a bad fix," said the judge. "I didn't want to stay over there the rest of my natural days trying to get a jury. I couldn't afford to have nearly two hundred peremptory challenges on account of newspaper editorials."

The explanation of Bridgewater's faux pas is supposed to be that he is new to the newspaper game and didn't know much about what an editor might or might not say concerning a criminal case.

MRS. OLSON DEAD.

Funds are being raised by the central department of the Y. M. C. A., the Hawaiian board and the Methodist board for the Japanese branch of the Y. M. C. A., which will move into its new quarters across from the Hawaii Shiping office on April 1.

Mr. M. Nakamura of the Yokohama Specie Bank is handling the fund, which will be devoted towards purchasing furniture for the Japanese Y. M. C. A. rooms.

KAUAI PUBLIC WORKS BOOMING

New bids for the construction of the Hanapepe, Kauai, school are now in the hands of the superintendent of public works. The Kauai loan fund commissioners forwarded the tenders, by mail. The first lot of tenders were all too high, and new bids were called for. The new bids were as follow: George E. Marshall, \$18,651; Hawaiian Construction and Dredging Co., \$19,120; C. B. Hofgaard & Co., \$20,000.

Action in regard to the bids has been deferred till March 27, as some information regarding the outbuildings has to be secured.

The Kauai-commissioners also report that there was only one bidder for the Mahanala bridge contract. G. Ewart and T. Brandt offered to do the work for \$3335.

For the regrading of the Hanapepe-Walaina road, the sum of \$3000 has been set aside. A further sum of \$2500 has been apportioned for the regrading of the Kapaa-Anahola road.

It is probable that the Hanapepe contracts will be awarded within a short time from now, and the erection of the school building will be rushed ahead as quickly as possible.

CAMPBELL BACK FROM BIG ISLAND

Superintendent of Public Works Marston Campbell returned from Hilo yesterday. He visited Hawaii in order to attend a meeting of the Loan Fund Commission, and he reports that everything went off very satisfactorily.

The meeting was held in the Masonic building on Thursday morning. Messrs. Horner, Lewis and Campbell were present.

The public was invited to attend, and those present took great interest in what was discussed. The first section of the belt road was talked over, and finally the contract for the construction was awarded to A. A. Wilson. The contract for the Bola-bola section, beyond Laupahoehoe, was not awarded.

"Everything went off satisfactorily," said the superintendent of public works this morning, "and Hilo looks all right." As soon as he returned to town the superintendent took up many matters that were awaiting his attention.

To whom it may concern. We will prepare (embalmed) bodies for shipment to any part of the United States and Maui, Hawaii and Kauai for less than one-half the price asked by any of the local undertakers. We have had the United States army contract over five years and are still holding the same today. If you want good work done economically, give us a call. M. E. Silva's Undertaking Establishment, Jacob Ordensine, Undertaker and Embalmer, also Business Manager.
